

Currently looking for an internship.

Hello, I'm Li Vide.

I'm a junior designer with a passion for visual content and creative strategy, based in Stockholm, Sweden.

I seek to create holistic visual solutions through an emotional connection - combining impactful design and aesthetics with business models and innovative thinking.

Curious to know how Word Art sparked my joy for design? Interested in discussing how to transform ideas into visuals? I'd be more than happy to hear from you. Drop me a line at hello@lvide.se
